

# 實現理想 追逐夢想

## Pursue your goal! Fulfill your dream!

Good morning, teachers and fellow students,

Welcome all of you back to school again after the long summer vacation! Now I would like to send a warm welcome to all new students and teachers who are joining our big family. I am Principal Wan. It is my pleasure to serve in this school from the new academic year onwards. I wish everyone of us to have a good start at the very beginning of the new school year.

Now, it's time for me to briefly talk about our school's two new major concerns. Let me go through them briefly with you.

The first major concern is to uplift students' language abilities and competencies and strengthen their learning efficacy in different disciplines in academics to achieve a sense of accomplishment. In fact, learning a language is a long and slow process. This year, we are going to arrange a Morning Reading Period once a week as a platform for you to showcase your hard work and share your unforgettable personal experiences. Apart from it, our native-speaking English teacher, Mr. Finnegan

William Sean surely will support us in enriching the English learning environment through thick and thin. Moreover, we recruit one more native-speaking English teacher. She is Fatima Afsheen who will co-organize very interesting and exciting English activities for every one of you and go into your classroom to conduct English lessons with your English teachers. Do take this precious opportunity to improve your English by chatting with our native-speaking English teachers on the school campus whenever you see them!

I would like to share one more piece of good news with you. With the strenuous efforts of Principal Leong and Ms. Fung Wing Yee, we have successfully applied for a two-year project called Project WeCan. All of you and the school will be benefited tremendously by participating in the project activities. More details and activities about the project will be announced later. I wish you all to be active and passionate to join the scheduled project activities in the coming future.

The second concern is implanting value education among students for upholding and developing positive values and attitudes in life, and building up a healthy lifestyle with a clear vision of their future life development. To promote whole-person development, we aim at helping you develop healthy habits and individual potentials as much as possible in your studies, personality and social skills. Do bear in mind that success does not happen in one day. Let us work hand in hand to achieve our targets gradually every day. Most importantly, we hope that you will pursue your targets confidently so as to realise your dreams in the future.

Dreaming big is the first step to achieving success. During the process, don't forget to set personal goals! Always be ready to ask yourself, "What is my dream?" The biggest adventure you can take is to live the life of your dreams. At the beginning of the school year, you have to promise yourself to find your answer to the above question at YLS College. Your experiences in taking on your challenging adventures will not be forgotten, but must be shared with all of us on different occasions at school. All of us are looking forward to hearing your stories of struggling for success expectantly. Always believe in yourself who can always perform magic throughout your life! Trust yourself! Thank you!

Principal Wan
